

Position Title: **Veterinary Assistant/ Veterinary Technician/ Registered Veterinary Tech**
Classification: Full-time, Non-Exempt
Date: May 2018
Salary: Dependent on experience – hourly

Summary:

The Veterinary Assistant/Veterinary Technician/Registered Veterinary Technician is the primary medical care provider for shelter animals and patients at the Stockton Animal shelter. They provide nursing care as directed by staff veterinarians and RVT supervisor. The animals in their care include patients of the Spay Neuter Clinic, Shelter Program and Foster Care Program. Working as a team to oversee the care and treatment of up to 500 animals at any given time is essential.

Essential Duties and Functions:

Veterinary Medical Care

- Monitor the health of shelter animals.
- Triage cases according to medical need.
- Perform medical intake physical examinations.
- Administer vaccines and other preventative medical treatments as outlined by Stockton Animal Shelter medical protocols.
- Perform and interpret basic diagnostic tests such as, but not limited to, fecal floatation, skin scrapes, heartworm test, FeLV/FIV tests, DTM's, blood agar, cytology, etc.
- Prepare patients for spay/neuter surgery, assist in surgery, and monitor anesthesia under the direction of the veterinarian and lead veterinary technician.
- Organize and prepare equipment and premises for patient treatments, spay-neuter and non-routine surgeries.
- Perform venipuncture, x-rays, laboratory tests, proper sample handling, IV catheter placement, and drug and fluid calculations as ordered by the veterinary staff.
- Able to interpret treatment sheets and administer treatment to patients (PO, topically, otic, ocular) under the direction of a veterinarian.
- Perform intramuscular and subcutaneous injections.
- Clean and pack surgical instruments.
- Assist doctors and other technicians in performing medical procedures.
- Administer medications to animals as directed by staff veterinarians.
- Operate an autoclave.
- Assists in taking radiographs.
- Follow veterinary care protocols for animals in the SMSNC - including medical, behavior, isolation, quarantine and general care protocols for the health and well-being of the animals; individually and as a herd.

This job description reflects the assignment of essential functions; it does not prescribe or restrict the tasks that may be assigned.

- Comply with all laws pertaining to controlled substances.
- Participate in medical rounds as directed by the staff veterinarian and supervisor.
- Understand standard veterinary terminology, basic medical math, procedures and animal health issues
- Facilitate good working relationships through teamwork and collaboration.
- Perform other duties as assigned and assist with special projects as needed.

Administrative Duties

- Maintain and create patient records in SM and for SN by accurately recording treatments, examinations, and test results on computerized patient charts and other medical records.
- Reads and responds to e-mails at least one time per shift.
- Participate in regular staff meetings.

Client and Community Service

- Admit and release animals from the shelter in a responsive, courteous, and tactful manner to both internal and external clients.
- Inform clients of any pertinent medical information regarding animal care – communicate release instructions.
- Practice and encourage the humane treatment of animals.
- Provide quality customer service to clients, volunteers, and staff while actively promoting our mission, services, programs and events.
- Promote donation and giving opportunities as appropriate.

Safety

- Ensure a safe work environment by following all safety guidelines and modeling safe work practices.
- Take immediate action to address any safety concerns that could put a staff member, volunteer, customer, animal, or the organization at risk.
- Maintain a clean, healthy, and sanitary work area; follow all pest rodent control/protocols.

Volunteers

- Work cooperatively with all volunteers and recognize the talent and commitment they bring to the Stockton Animal Shelter and the Animal Protection League.

Diversity and Inclusiveness

- Work effectively with individuals and colleagues from diverse communities and cultures.
